

January Son is Alexander Lewis, a solo artist from the California Bay Area. *The Problem of Other Minds* is the band's sophomore release, following 2014's *Occitan Reverb*. The Problem of Other Minds furthers the band's mission to make lyrically dangerous, emotionally driven music. Inspired by the likes of Damien Jurado, Midlake, Spoon, The National, Bon Iver, Bruce Springsteen, and Elvis Costello. January Son is country flavor, rock with a folk spirit, melodic darkness, and killer harmony.
